- Self-Learning & Motivation
- Critical Thinking
- Time Management
- Stress Resilience
- Responsibility & Reliability
- Optimism & Positive Attitude
- Calm

WORK EXPERIENCE

March 2024 – currently

Junior C++ Developer in “RECON.dp”

I developed a system of applications that accelerated the company's work processes by 32%. I am responsible for developing various internal projects, including both Windows applications and web solutions tailored to the company's needs. My role also includes creating database structures, deploying applications, and maintaining smooth operation in production.

August 2023 - February 2024

Junior C# Developer

Pet-Projects

Task Manager Application: Developed a desktop application for Windows to manage tasks and deadlines efficiently, implementing a database to store and retrieve user data. Designed a responsive user interface with a focus on usability and performance, using C# with WPF.
